Plaintiff/petitioner: Sheri Denise Allred

Defendant/respondent: Hugh Hefner

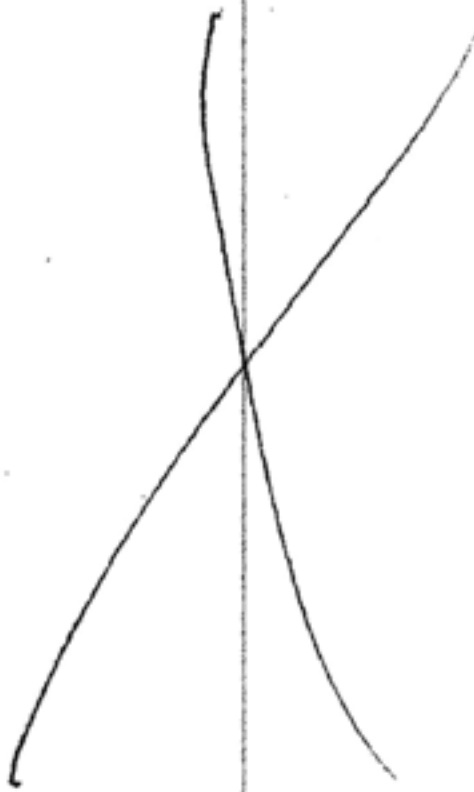

Yes, sir I am asking for 2 billion dollars from Mr. Hefner. He's been after me since I was a baby. Along with a pedifile organization here in L.A When I was about 5 yrs. Old He mysteriously was underneath my bed and he grabbed my arm and said that he and forsay the beatles and he mentioned the names of them. I asked like in my head ,since I'm a hat everone in the world heres my thought's, a good way to establish peace. So I thought and I said you'd better let go of my hand. And so I braced myself against the wall and eventually he let go I ran into my parents room and told my adopted mother in which she replied it was probably your adopted dad. But it wasn't him it has to be telepathy their always has been. He's always mayed my life my adopted families lives a mess you relize he's suppose to be the centaur of the greek gods. And since I'm really a reincarnation, I really am Venus Aphrodite Demilo the goddess. Along with roger dawson he's odyeseuos and everyone I know knows this. And Hugh Hefner was having an affair with my adopted mother and his wife Kimberly Hefner which was this girl that lived around the corner from me. And at 15 he tried to pick up but I wasn't a junkie or a dope addict you know being raised around a sherriff dad, and my uncle's bill and john mcguffey police men from the 70's,80's on my adopted dad's side I come from a rich family oil wells from J.Paul Getty, and we were know to be a part of the John Gotti Mafia the head hitchman had an affair with my adopted mother at the same time Mr. Hefner was seeing her. My first husband was taken care of if you know what I mean he the hitch man said if he touches you one more time I'm getting rid of him when I was told this in my head beibg the hat that I am I can tell you whatever you can ask in telepathy I know everything when it comes to learning. The Gotti man had my husband eat his pussy cause he's a morphidite. I know you don't ask what is a morphodite, my dad my adopted dad told us kids what one of them are. That means that my ex isn't here In the upper story, if you get what I mean. And Moe Howard my adopted dad worked for republic studio Hugh has made it with that pedifile organization hard to work, my stuff ens up disappearing and my family that I grew up with there's so jeoulousits like insanous but Hugh Hefner is the one

That was the start of helping the pedifile organization in co-hoots with him they, in which I meet Hugh Hefner and the head person's of the pedifile family. Mr. Hefner and the hitchman for the Gotti family could turn states evidence on the pedifile organization. I even told my adopted parents like after mother talked to me and said they want me to molest you, can I asked who They? Are, or is. Tats what I'm talking about. Like I said I was born the biggest hat in the world, like every president elected the ones that I seemed to favor always got the job. I then told my parents let them take everything away, and when I got old enough to understand what was going on I will get everything that was stolen back from the pedifile organization like property, parcels, lots to a car lot, a gas station and Getty oilwells, just the mineral rights. See being a hat I'm suppose to eat, God just made sure that I'm able to say even a morphidite's pussy. TO some this is scary. But if you haven't gotten molested its not like everyone dosent want to touch you or molest you, or even be a pedifile, even at 13yrs. Old a teenager stagetory rape every time a messed with a fairly older man. If older than 17 that's what that was called. Its Don Hitler, and the hitch man for the Gottis ever since they or Hufg picked up the one that I guess the whole world new about Schraier, Sherman mousilini cole also known as stalin, I know after Mr. Hefner pick up that one chick that was a junkie, and had an affair with me husband and had a daughter from her every guy that I had she has had, to what signifigence it had, I do not know its like a game how much hurt and to either take her mind, or make her not really their in the upper story, dosent it seem that to be a playboy that's what they go through, not me, and ill say it again not me. I sir, Judge am not a dope addict I have a conscious not to say while growing up I haven't done my experimenting, I sir like every one that I have grown up with aren't perfect. I kindly respect the one's that grew up not indulging in anything only a compliment to them there parents or whoever raised them sure would have to be awesome, to me the world as we know it need people to run the country, and other jobs to with special people like I've mentioned like I was saying I at this time was experimenting. And you knew that this organization was making my adopted parents, give me pill's to make molesting easier and that pedifile orgonation was always hearing you know how? That Sherman mousilini cole and the rest of the morphodites, like who is involved, try Darren Elliott, eric clenne, don valasques which this skinny ate up junkie of smoking rock cocaine he thinks that he's Zues of the God' sand he's the biggest morphidite that I know, and laury lawerence is suppose to be the head morphidite eater. The way I was raised by black womenin which they always's thought I did eat a morphidite out like being molested but not really because my hat just says that I'm a graduate of school and of every university that you can think of my hat knows cure's for diseases being of God almighty, there is only one 'God' all us people can do is be who we are, he's not a judger on how a person acts or dresses, or especially the way a person looks, is Love is everlasting if everybody don't know this about the Father the lugher

That was the start of helping the pedifile organization in co-hoots with him they, in which I ment Hugh Hefner and the head person's of the pedifile family . Mr. Hefner and the hitchman for the Gotti family could turn states evidence on the pedifile organization. I even told my adopted parents like after mother talked to me and said they want me to molest you, can I asked who They? Are, or is, Tats what I'm talking about. But I felt it. They would think in entire me, even though we
a morphodite, which being than a girl baby, of course I have a
girl's part.
