

STATEMENT OF TRACIE RICE

Lindsay Lohan's actions on the evening of July 23-24th put me through one of the most frightening experiences of my life. What Miss Lohan did that night was extremely dangerous and reprehensible. Someone could easily have been killed or seriously hurt because of her irresponsible decisions that evening. Her actions showed a complete disregard for my safety and well-being and for that of the entire community.

Though I understand Ms. Lohan has personal problems and has been treated for substance abuse, I believe that she must be held accountable for her actions that evening. I intend to cooperate fully with the District Attorney's Office to ensure that Ms. Lohan is held accountable for her actions under the criminal justice system. I hope that she will also receive the help she needs to rehabilitate herself fully in connection with those proceedings.

Reluctantly, I have decided to bring a civil action against Ms. Lohan for the enormous damage she has done to me by her conduct that evening. It is my sincere hope that the civil lawsuit will ensure that Miss Lohan is held fully accountable for her actions and will impress upon her that she cannot continue to act in a manner that puts the public at such peril.
